ROBOLYST DEMO QUALIFIER · PIT SCOUTING

99911

Titanium Turtles

Scan this for your robot sheet and phone alerts

robolyst.org/pit/demo-pit-sheet

Your team’s page for this event

It holds two things. A short sheet about your robot, which every team here reads on one shared report, so nobody spends the day repeating the same interview. And a switch that puts match alerts on your phone.

1. Scan the code above. It opens team 99911's page only.

2. Describe your robot. Drivetrain, auto, teleop, endgame. Skip anything you want to keep private.

3. Turn on phone alerts. Tap "Alert me for Team 99911". Your phone buzzes a few matches before you play and when event staff post an announcement. On an iPhone, add the page to your Home Screen first.

4. Come back any time. The same code reopens the page all weekend. If the event runs its queue on Robolyst, it also shows your next match, inspection and the practice line.

Read every team's answers: robolyst.org/event/2026/ftc/DEMOQ/scouting

Robolyst: no login, no app. This code opens team 99911's page only. Anyone who scans it can edit that sheet, so keep it at your pit table.
