Everyone scouts everyone, once

Instead of sending scouts pit to pit, every team at this event fills out one short form about its own robot. All the answers land in one shared report that every team here can read, so nobody spends the day repeating the same interview. Answers also show on each team's public page.

- 1. Scan the code above.** It opens the form for team 99901 only.
- 2. Answer what you know.** Drivetrain, auto, teleop, endgame. Skip anything you would rather not share.
- 3. Come back any time.** The same code reopens your entry, so update it as the day goes on.

Robolyst: no login, no app. This code is unique to team 99901. Keep it in your pit and don't pass it to another team, or their answers overwrite yours.
